

After 150 years, comes the end for the house of Rychiger's birth

Rychiger house with family
beginning of the 20th century

Rychiger house shortly before the
pull down in January 2010

92 years after Rudolf Rychiger has founded the original one-man company in 1918 therein, the house of Rychiger's birth has to yield a new building. Till 2007 lived in the approximately 150 year old house altogether 4 generations of the Rychiger family. Due to the shortage of space in the Rychiger AG, the house has been converted to offices in autumn 2007, which were used by the department finances, personal, sales and marketing until Christmas last year. Now the time has come to demolish the old house as well as the old factory hall to build a new office and production facility. However, before the pull down was started, the house had been approved with a dignified „farewell-aperitif“ of the Rychiger family as well as the staff of the Rychiger AG. Till the end of 2010 the new building should be finished. We approve the old house with wistfulness and many good memories, on the same time we are looking forward to our new building.

3 generations of the Rychiger
family by the farewell-aperitif

The new building
